

The idea is simple.

We invest in Utah women founders to make money.

*When a group of women commits to **work together**, there's no broken system we can't fix. Let's fund Utah's overlooked founders and **win together** as women in Utah.*

You're already investing. **Learn how to do it better.**

Silver & Salt Capital is an angel investment collective where accredited investors pool their capital to fund early-stage companies founded by women in Utah. We commit **\$10,000 a year for five years** (a total of \$50,000), vet deals together, and make our own individual investment decisions, building a diversified portfolio across **30+ companies**. The model is simple and is working in other parts of the country.

*The gap in Utah startups founded by women is the investment opportunity. We are seeking **100 women** to join as founding members.*

If you believe Utah women can do more together, this is the place for you.

Tori Horton *Founder*

Tori is a builder and an operator who has spent her career at the intersection of capital and women's economic power. She has launched six startups, led PayPal's women's economic empowerment program, and invests as a limited partner with How Women Invest and Portfolia.

1 of 169

In 2025, only **1 funded Utah startup** was founded by a woman.

Why join

- **Make money while you move the needle.** This is an investment thesis first. Women-founded companies are out-earning the field on every dollar invested, and you get diversified exposure to 30+ startups in an underfunded, high-upside market.
- **Invest with conviction and community.** You get collective sourcing, shared diligence, and a room full of sharp women. Every investment decision stays yours.
- **Get in early on Utah's next generation.** The state's innovation wave is being built. Move your existing investments to invest in your community.
- **Build the network as you build the portfolio.** We're investing and growing all our capital: relationships, knowledge, and finance to advocate for one another.
- **Be the 1% that changes the 1%.** Capital is the most direct form of belief. This is where you put yours to work.

THE OPPORTUNITY

Utah's next generation of innovation will be shaped by founders & determined by funders.
It's time more of them are women.
